PROJECTS

Plunder — *An online marketplace focused on safety.*

Completed September 2018 - Github Repo

Team leader responsible for graphic design elements, overall UX, concept development, authentication, construction of SQL database, building a backend server and Google Maps API integration.

Hidden Gem Atlanta — *A way for locals to support local businesses.*

Completed July 2018 - Github Repo

Team member responsible for graphic design elements, overall UX, concept development and front end JavaScript.

Do Good. Die Great. — *An app sharing volunteer opportunities.*

In Progress September 2018 - Github Repo

Responsible for all aspects of this personal project. This is a personal side project I am working on. Building an app with React that will use the Volunteermatch API to help users give back.

EXPERIENCE

Sage Woodfire Tavern, Atlanta, GA — *Assistant General Manager*

November 2016 - April 2018

Managed the daily operations of a 2 million dollar a year restaurant while ensuring that each guest experienced an individualized dining experience. Here I developed a strong sense of communications, team building and conflict resolution.

The Buckhead Diner, Atlanta, GA — *Server*

March 2015 - November 2016

Worked as part of a team to provide a unique and unforgettable dining experience. Here I honed my abilities in effective customer relation management and solving customer oriented problems.

The Buckhead Grand, Atlanta, GA — *Concierge*

October 2014 - February 2015

Manage key administration, parking and postal deliveries for the residents of the building. Handle all communications between residents, guests, management and maintenance.
